## *INTRODUCTION*

This submittal is the Post-Closure Permit Renewal Application (Permit Application) for the Resource Conservation and Recovery Act (RCRA) Status Open Burning/Open Detonation (OB/OD) Area at Fort Wingate Depot Activity (FWDA), Gallup, New Mexico. This Permit Application has been prepared for Tooele Army Depot (TEAD), the administrative command for FWDA.

This Permit application outlines the general and specific standards to conduct activities necessary to complete closure of the Open Burn/Open Detonation (OB/OD) Unit, perform post-closure care for the OB/OD Unit, if necessary, conduct corrective action activities, and conduct tasks in accordance with a schedule of compliance as required pursuant to the New Mexico Hazardous Waste Act (HWA), as amended, NMSA 1978, §§ 74-4-1 et seq., and the New Mexico Hazardous Waste Management Regulations (HWMR), 20.4.1 NMAC.

This Permit renewal application also describes the operational controls to manage and treat on-site generated waste military munitions (WMM) consisting of Munitions and Explosives of Concern (MEC) at the Corrective Action Management Unit (CAMU) in accordance with 20.4.1 NMAC, and incorporating 40 Code of Federal Regulations (CFR) 264.552. The CAMU is located at Solid Waste Management Unit (SWMU) 14 near the Old Burning Ground and Demolition Landfill within Parcel 3.

This permit renewal application is being submitted at least one hundred eighty (180) calendar days before the expiration date of the current permit.

Because much of the information (e.g., figures, photographs, and tables) required is common to multiple components of the Permit Application, this submittal is organized as a series of attachments, as follows:

- Attachment A - RCRA Part A information
  - Attachment B - RCRA Part B information
  - Attachment C - RCRA Closure Plan
  - Attachment D - RCRA Post-Closure Care Plan
  - Attachment E - Maps and Figures
  - Attachment F - Tables
  - Attachment G - Reports and Analytical Data
-

- Attachment H - References Cited
  - Attachment I - Responses to NMED Specific Comments
  - Attachment J - Munitions and Explosives of Concern (MEC) Activity Summaries
  - Attachment K - Responses to Notice of Violation
  - Attachment L - Responses to Notice of Deficiency
  - Attachment M - Emergency Response Agreements
  - Attachment N - Contingency Plan
  - Attachment O - Training Plan Outline
  - Attachment P - 100-year Flood Calculations
  - Attachment Q - Inspection Schedule
  - Attachment R - Current Facility Permit
-
