FORT WINGATE DEPOT ACTIVITY, EPA ID# NM6213820974

Dear Mr. Patterson:

The New Mexico Environment Department (NMED) has reviewed Fort Wingate Depot Activity's (the Permittee) *Supplemental Ground Water Investigation-Administration and TNT Leaching Beds Areas*, dated March 24, 2006. NMED approves the report; however, for future submittals, the Permittee must provide well location coordinates in table format. Also, the Permittee must incorporate a row that identifies the applicable soil or groundwater standards [e.g., New Mexico Soil Screening Levels (NMSSLs), Water Quality Control Commission (WQCC)] in all summary analytical results tables presented in future reports.
