FWDA-MISC**

Dear Messrs. Patterson and Smith:

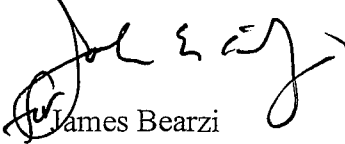

The purpose of this letter is to notify the Permittee that the above referenced report summarizing the emergency interim measures to treat energetics abandoned by TPL, Inc did not include a map of the demolition area showing the multiple increment (MI) sample collection locations. The Permittee must provide the locations of the pre-demolition and post-demolition MI grid and increment sample locations on a figure in the report. The Permittee must also submit replacement pages for the above mentioned document that include an explanation of the MI sampling performed at the demolition area (e.g., sample collection method, tools used, number of increments collected, quantity of the sample collected).

The Permittee must provide NMED with the information requested in this letter no later than June 16, 2008.

Messrs. Patterson and Smith  
May 12, 2008
