**RE: RELEASE ASSESSMENT REQUEST
STORM SEWER SYSTEM FOR PARCEL 11
FORT WINGATE DEPOT ACTIVITY
EPA ID# NM6213820974
FWDA-07-004**

Dear Messrs. Patterson and Smith:

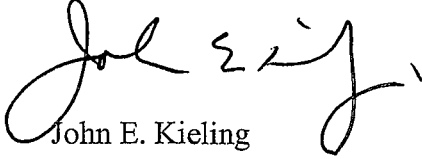

The New Mexico Environment Department (NMED) is in the process of reviewing Fort Wingate Depot Activity's (FWDA) Parcel 11 RCRA Facility Investigation (RFI) Work Plan, dated February 28, 2008. The Permittee provides information in the RFI Work Plan that indicates that the storm sewer system found throughout Parcel 11 is connected to a number of structures. Based on the information provided the discharge associated with some of these structures is not storm water runoff and potentially discharged waste water to the storm water sewer system. The Permittee must therefore conduct a Release Assessment to investigate potential historical contaminant discharges to, and contamination associated with, the storm sewer system located throughout Parcel 11 in accordance with Section VII.D of the RCRA Permit.

The Release Assessment must be submitted to NMED no later than November 1, 2008.

Messrs. Patterson and Smith
August 1, 2008
