March 16, 2009

Mr. James P. Bearzi
Chief, Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505-6303

Subject: Modification to the March 2008 Fort Wingate Depot Activity, Interim Facility Wide Ground Water Monitoring Plan

Dear Mr. Bearzi:

The purpose of this letter is to submit a modification to the March 2008, Fort Wingate Depot Activity, (FWDA) Interim Facility Wide Ground Water Monitoring Plan (GWMP). Ground water sampling activities are regulated under the Resource, Conservation, and Recovery Act (RCRA) Permit EPA ID No. NM6213820974, and sampling activity requirements are outlined in the GWMP. The Albuquerque Corps of Engineers will send the "copy furnished" documents under separate cover. The documents include change pages to the current GWMP which are related to the disposal of liquid and solid waste that is generated during sampling activities. The procedures described in the change pages are proposed for future ground water sampling activities only at existing ground water sampling locations that are noted in the current approved GWMP. Additionally, there is also an added appendix for supporting documentation. This appendix should be placed in the back of the current GWMP with other appendices.

Should you have questions or require further information, please call me at (330) 358-7312.

Sincerely,

A handwritten signature in cursive script that reads "Mark Patterson".

Mark Patterson
BRAC Environmental Coordinator
