Christy,

The attached spreadsheet has 2 worksheets. One lists the correspondence currently on the FWDA Public Website (47). The other lists correspondence that I have received that has not yet been processed and put on the Public Site but is available on the Team site (17). These will be processed now that the maintenance contract has been renewed. Processing consists of running the OCR capture in Acrobat and giving the letters intelligible names. The letters that have not been processed were received in April and May. I have not received any since then.
