Santa Fe, NM 87505-6303

Re: Response to Notice of Disapproval, Class 3 Permit Modification Application
OB/OD Corrective Action Management Unit, Fort Wingate Depot Activity
EPA ID # NM6213820974, PWDA-07-006

Dear Mr. Bearzi:

This letter is provided in response to your Notice of Disapproval (NOD), dated April 1, 2010 pertaining to the Department of the Army's RCRA Class 3 Permit Modification Application, OB/OD Corrective Action Management Unit, dated January 2010. We have reviewed the two comments provided by your office regarding Part A of the permit modification application and agree with the requested changes. As such, we are providing a revised Part A with this submittal in response to your comments.

The Part A permit modification application, attached, has been updated to address the appropriate process code (Comment #1) and uses the updated Part A application form dated November 2009 (Comment #2). Because of the changes requested as part of Comment #1, additional edits to the supporting text for the Part A attachment were prepared. To highlight these changes, we have provided a red line/strikeout copy of the Part A text attachment to highlight the revisions, as well as a clean version of the attachment for your records.

The Department of the Army believes these revisions are sufficient to complete the RCRA Class 3 Permit Modification Application for this unit. As such, the RCRA Subtitle C Site Identification Form contained within the Part A revisions includes the signature of the owner/operator of this facility.

Sincerely,

A handwritten signature in cursive script that reads "Mark Patterson".

Mark Patterson
BRAC Environmental Coordinator

Attachments: Updated RCRA Subtitle C Site Identification Form and Hazardous Waste Permit Information Form
Part A Attachment (red line strikeout version and clean copy)
