Mr. John Kieling
Chief, Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505-6303

Dear Mr. Kieling:

The purpose of this letter is to request an extension for the April 2012 Facility-Wide Groundwater Periodic Monitoring Report (PMR) and the Off-Site Wells PMR for the Fort Wingate Depot Activity (RCRA Permit No. NM 6213820974). Both reports are currently under review, but will not be submitted to stakeholder and the New Mexico Environment Department by the end of this year. We request an extension to January 31, 2013. This will provide us sufficient time to revise these documents if necessary due to internal comment review.

If you have questions or require further information, please call me at (330) 358-7312, or David Henry, USACE Albuquerque District at (505) 342-3139.

Sincerely,

Mark Patterson
BRAC Environmental Coordinator
