

DEPARTMENT OF THE ARMY
FORT WINGATE DEPOT ACTIVITY
P.O. BOX 268
FORT WINGATE, NM 87316

December 28, 2012

Mr. John Kieling
Chief, Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505-6303

Dear Mr. Kieling:

The purpose of this letter is to submit the report related to the installation of additional monitoring wells and abandonment of monitoring wells that no longer function as designed. The monitoring wells were installed and abandoned in accordance with the Fort Wingate Depot Activity Monitoring Well Installation and Abandonment Plan, dated April 2011 (Permit No. EPA NM 621380974). This report only relates to the installation, construction, abandonment, locations, initial water levels, and initial chemical data. Detailed analyses of chemical data related to plumes are discussed in the Groundwater Periodic Monitoring Reports (PMR). Monitoring wells installed during 2011 were reported in the Groundwater PMR for April 2011 through October 2011, which was submitted to NMED on May 14, 2012. Detailed analyses of chemical data from monitoring wells installed at the beginning of 2012 will be discussed in the April 2012 Groundwater PMR, which is scheduled for submission at the end of January 2013.

If you have questions or require further information, please call me at (330) 358-7312, or David Henry of my staff at (505) 342-3139

Sincerely,

*Signed by David Henry
for Mark Patterson*

Mark Patterson
