Dear Mr. Kieling:

The Department of the Army is submitting a revised Parcel 23 RCRA Facility Investigation (RFI) Final Report. The report was revised under authority of the Fort Wingate Depot Activity RCRA Permit NM6213820974. This revision addresses comments noted in the Notice of Disapproval (NOD) letter sent to the Army on August 19, 2014. The enclosed documents include two hard copies of the revised final report, and two CDs that also include a redline-strikeout version. The redline-strikeout version tracked changes made to the initial final RFI report. Responses to NOD letter comments are included in Appendix A of the revised report. The U.S. Geological Survey will send the revised report and CDs under a separate cover.

If you have questions or require further information, please feel free to contact me at (330) 358-7312.

Sincerely,

Mark Patterson
BRAC Environmental Coordinator
