RE: Second Extension Request for the Final Groundwater Periodic Monitoring Report July through December 2017, Revision 1, Fort Wingate Depot Activity, New Mexico

Dear Mr. Kieling,

The purpose of this letter is to request a second extension from January 31, 2019 to April 30, 2019 for the submission of the Final Groundwater Periodic Monitoring Report, July through December 2017, Revision 1, Fort Wingate Depot Activity, New Mexico.

The Army is seeking an extension in time under RCRA Permit Section I.M. due to additional time needed to address New Mexico Environment Department (NMED) comments, specifically the use of groundwater screening value for diesel range organics of 47.3 ug/L.

If you have questions or require further information, please call me at (505) 721-9770.

Sincerely,
