Re: Preliminary Draft Revised Environmental Protection Plan (EPP), Spill Prevention, Control and Countermeasure Plan (SPCC), and Waste Management Plan/Hazardous Waste Contingency Plan (WMP/HWCP) for the Interim Measures for Parcels 21 and 24 and Abandonment of Wells - Fort Wingate Depot Activity, New Mexico  
Contract No. W9128F-13-D-0025 and Modification No. 1

Dear Mr. Khan:

According to the FWDA submittal requirements attached is one hard copy and one electronic copy on CD of the Preliminary Draft (Army Review) EPP, SPCC, and combined WMP/HWCP for Interim Measures for Parcels 21 and 24 and Abandonment of Wells, Fort Wingate Depot Activity, New Mexico, dated 05 February 2016. Additional hard copies and electronic copies on CD are also being provided to other recipients as listed below, again according to the submittal register.

It should be noted that according to past protocol, we do not plan to submit the revised SWPPP until the Army Draft IMWP has been submitted and commented on by the Army. The reason for this is that the SWPPP is a living document, and the Army requested this approach originally to account for any changes required to the IMWP based on Army review, and that may also affect the SWPPP.

If you have any questions or comments, please feel free to contact us at your convenience.

Sincerely,  
Zapata Incorporated

A handwritten signature in blue ink, appearing to read 'Steven E. Morrissette', is written over a horizontal line.
